

Dealership Self-Setup Instructions for GM Data Integration

The following setup only needs to be completed once.

To enable General Motors data integration into **ScanApp**, Parts Workbench Plus must be configured to generate two daily reports for the dealership: Shipments and Invoices. The Shipment Report is a daily Digital Packing Slip for all shipments. The Invoices are the copies of the invoices sent to the dealership accounting department. Both digital GM reports are automatically emailed to **ScanApp** daily by GM and added to the dealership **ScanApp** database.

If you prefer to set up GM data for **ScanApp** on your own, follow the steps below. Alternatively, Power Systems Inc. can perform the setup for you free of charge; please contact your sales representative for more information.

Setup Instructions

For Shipments Daily Data:

1. Log on to Parts Workbench Plus
2. Click the 'Reports' menu, then select 'Custom Reports.'
3. Click the 'Create New Report' button.
4. Enter the Report Name as: 'ScanApp-(DealerCode)-Shipments.'
5. Click 'Report Type' and select 'Shipments.'
6. Click 'Next.'
7. Click the '>>' button to move all rows from the left column to the right.
8. Click 'Next.'
9. Click 'Next' again.
10. Select 'Daily' for Frequency.
11. Select 'Previous Day (or 2)' for the Amount of Data.
12. Set the File Format to 'CSV.'
13. Click 'Email Delivery.'
14. Under CC Email Recipients, enter: DealerCode@powersystemsinc.ca (see note below).
15. Click 'Save.'

For Invoices Daily Data:

1. Log on to Parts Workbench Plus
2. Click the 'Reports' menu, then select 'Custom Reports.'
3. Click the 'Create New Report' button.
4. Enter the Report Name as: 'ScanApp-(DealerCode)-Invoices.' (see note below).
5. Click 'Report Type' and select 'Invoices.'
6. Click 'Next.'

7. Click the '>>' button to move all rows from the left column to the right.
8. Click 'Next.'
9. Click 'Next' again.
10. Select 'Daily' for Frequency.
11. Select 'Previous Day (or 2)' for the Amount of Data.
12. Set the File Format to 'CSV.'
13. Click 'Email Delivery.'
14. Under CC Email Recipients, enter: DealerCode@powersystemsinc.ca (see note below).
15. Click 'Save.'

Historical Data:

Once the two above steps are completed for the daily data feed **both** steps need to be repeated for a one-time export of historical data for the last year. To perform the Historical Data steps run both procedures again with the following three substitutions:

4. Enter the Report Name as: 'ScanApp-(DealerCode)-Invoices One Time.'
10. Select 'One Time' for Frequency.
11. Select 'Last 365 Days' for the Amount of Data.

Notes:

“DealerCode” refers to your GM Dealer Code with a leading zero. For example, if your dealer code is 85447 the value of “DealerCode” should be 085447.
